The Summer School Project

An initiative of Mitalee Youth Association (charity reg no:1130404)
in partnership with
Diverse FM Community Media & Training (charity no: 1172543)

Summer School project is jointly organised by Diverse FM Community Media and Training and Mitalee Youth Association, and supported by a range of partner agencies from both public and voluntary and community sector, including Luton Borough Council, Bedfordshire Police, Bedfordshire and Luton Fire and Rescue Service, Maidenhall Junior School, Safer Luton Partnership, Community Interest Company Luton (CIC), TOKKO, Brook, 4YP, New Horizon, Walk to Freedom Foundation, Bedfordshire & Luton Community Foundation, #iwill, London Luton Airport, Drugs and Alcohol Services in the Community and others.

Summer School has been running in the Burypark area of Luton for over 27 years.

For the last 11 years the project has been taking place at Maidenhall Junior School which is located in the Saints Ward and borders with Dallow, Biscot and Challney Wards of Luton.

Majority of the participants attend the project comes from Biscot and Dallow Wards. Both of these wards are amongst the 10% of the most deprived wards in the East of England region. It suffers from multiple of deprivation including poor housing, lack of amenities/ outdoor playing areas, poor educational attainment, lack of skills, high unemployment, poor health, drugs and alcohol misuse and other issues related to socio-economic factors.

Summer School project is entirely run by young people, for young people, from start to finish. With the aid of radio broadcasting, personal contacts, carrying out outreach works in the community and referrals from our partner agencies, we successfully recruit and train up to 120 young people aged 16-25 and from different social, community and cultural backgrounds as volunteer worker each year.

Summer School provides unique opportunities to local young people to register as volunteer and benefit from a range of training and educational workshops, including the mandatory Child Protection, Safeguarding and First Aid training.

Some of the volunteers are also provided with optional mentoring, leadership development and project management training, enabling them to gain relevant knowledge and skills to work as a mentor to other young people and help organise and run the daily programme of activities.

All volunteers undergo DBS checks prior to start working at the project. Once the training and DBS clearance completed, all volunteer are encouraged and supported to become actively involved in the project planning and development of a range of social, educational, recreational, educational and awareness raising workshops and a range of accredited and non-accredited training courses, in order for them to be empowered and have a voice in shaping and delivering the project and its activities.

Many of the young people engage at the project as participant and later on work as volunteer, use the project as a stepping stone and goes on to become youth worker, social worker, teacher, classroom assistant and community development worker.

I would like to take this opportunity to thanks all the volunteers, participants and parents and more importantly all the partner agencies, sponsors and funders, without whose supports we would not be able to deliver this initiatives.

Thank you

Musthafa Hussain
Summer School Co-ordinator
